J.K. Fenner (India) Limited is a member of the JK Organisation which ranks among the top Industrial houses in India for over 100 years. The name Fenner has been synonymous with Mechanical Power Transmission and Sealing Solutions. Fenner commenced operations in India in 1929 and put up their first manufacturing unit at Madurai in Tamilnadu in the year 1956. Currently there are 7 manufacturing units over 5 locations.

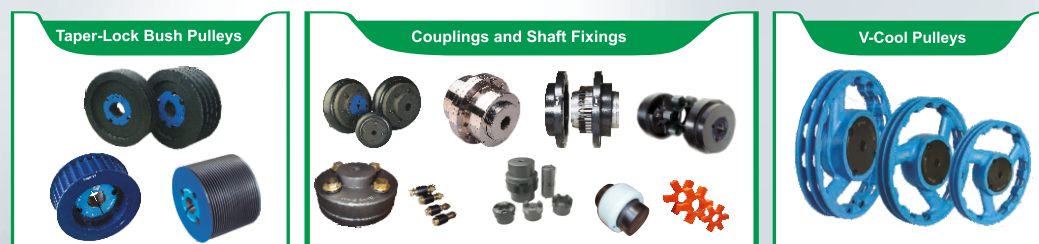

We are ranked as the leading stockist & exporter of Fenner Pulleys & Couplings. Fenner products are manufactured by industry experts using top-notch quality raw material in conformity with set industry standards at vendors end.

Product Range:

- Classical Belts
- Space Saver Wedge Belts
- Poly Belts
- Timing Belts
- Automotive Belts

- Taper Lock Dual Duty Pulleys
- Poly V Pulleys
- Timing Pulleys
- Fenaflex Tyre Couplings
- Curved Tooth Flexible Gear Couplings
- HRC Couplings
- Resilient Couplings
- Essex Jaw Couplings
- V-Cool Pulleys
- Belt Tensioner
- Maintenance Kit

- Aerators
- Shaft Mounted Speed Reducer
- Worm Gear Boxes & Geared Motors
- Inline Helical Gear Boxes
- Parallel Helical Gear Boxes
- Vibrator Motors

The Bonfiglioli Group experience began back in 1956 founded by Mr. Clementino Bonfiglioli. They have experienced a remarkable expansion over this period. Bonfiglioli Transmissions Private Limited (BTPL), India is a 100% subsidiary of the Bonfiglioli Group, established with appropriate approvals and registration in year 1999. BTPL are producing Inline Helical Gear Reducers, Shaft Mounted Gear Boxes, Subassemblies of Planetary Drives and various Components.

We are the leading stockist of Bonfiglioli range of products since 1999. Our prestigious clients can avail from us, an excellent quality array of Bonfiglioli Gearboxes and Motors. Quality controllers inspect this range on diverse quality parameters in order to ensure delivery of defect-free products at the clients' end. Available in various technical specifications, the offered products can be availed at reasonable prices from us.

Range:

- | | | | |
|--|---|--|---|
| AS - Inline Helical Gear Motors | VF-W - Universal Worm Gear Motors | 300 - Planetary gear motors | BE - Electric Three-phase Motors |
| A - Helical-Bevel gear motors | TA - Shaft Mounted Speed Reducers | HDP - Parallel Shaft gear units | F - Shaft Mounted gear motors |
| C - Helical Gearmotors | S - Single Reduction Helical Gear Motors | Mechatronics & Motions - Servo Speed Reducers & Electric Drives | |

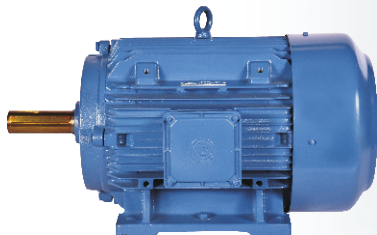

We are now the **“AUTHORIZED” Service Franchisee** for Bonfiglioli Product range. We keep sufficient stock of spare parts to provide technical and maintenance services diligently. Our **Service Professionals** are trained and authorised by Bonfiglioli Transmissions Pvt. Ltd. to take service contracts and Annual Maintenance Contracts (AMC's).

Bharat Bijlee is one of the leading Electrical Motor manufacturer in India. It offers a comprehensive range of highly reliable and energy efficient 3 Phase AC Electrical Rotating Machine from 0.12 kW to 1250 kW.

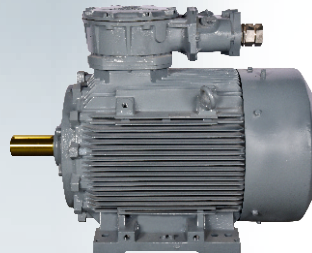

Well over 2 million Bharat Bijlee Motors serve Indian agriculture and industry. Modern manufacturing systems supported by SAP R/3, rigorous quality control and special purpose CNC machines ensure precision and flexibility. Computer and communications technology integrates this with marketing and distribution network which is endorsed by ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 Standards.

Bharat Bijlee has been a pioneer in the field of standard and special electric motors and range of products. We have always advocated the concept of energy saving for sustainable future. It has been our endeavor to develop wide of motors in premium efficiency series that are suitable for the most severe application. We have categorized our range as follows:

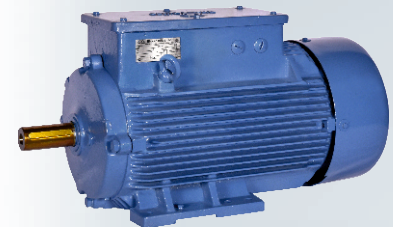

**General Purpose Motors
for Safe Area**

- IE2 series
- Premium Efficiency IE3 series motors

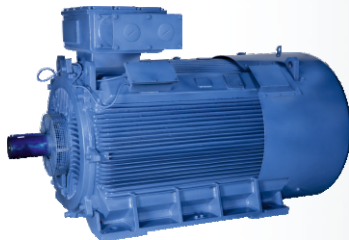

Hazardous Area Motors

- Flame Proof Motors Ex(d) in standard, IE2 & IE3 efficiencies
- Non-Sparking Motors Ex(nA) in IE2 efficiency

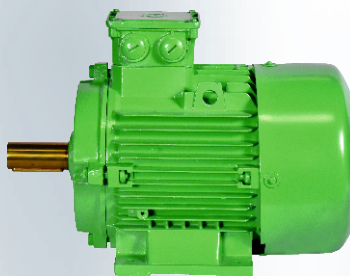

Special Purpose Motors

- Brake Motors
- Crane & Hoist Duty Motors
- Slip Ring Motors
- Cane Unloader Motors
- Textile Motors

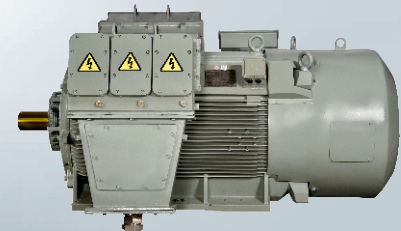

**High Efficiency Large
Frame Motors with DCCA**

SynchroVERT®

IE4 Super Premium
Efficiency Motors

MV Motors upto 1000 kW

- Safe Area Motors: upto 11kV
- Non Sparking Motors Ex(nA): upto 6.6kV

Havells India Limited is a leading Fast Moving Electrical Goods (FMEG) Company and a major power distribution equipment manufacturer with a strong global presence. Presenting a range of industrial electrical solutions from Havells - from circuit protection and surge protection devices, reactive power solutions, HT & LT cables, induction motors, to professional lighting and heavy duty fans.

HAVELLS

Designed to fulfil the applications requiring high-performance levels and total reliability for a long time, the latest range of Havells 3 phase energy efficient LV induction motors include Inverter Duty Motors, Crane Duty Motors, Brake Motors, Dual Speed Motors and Smoke Ventilated Motors. With ease of installation and low cost power transmission units that drive a multitude of machine applications, Havells motors are highly energy efficient 3 phase motors and consume less power as opposed to traditional motors.

BRAKE MOTORS

Available in 4 different RPMs, these motors have a high braking torque for instant stopping and are easy to install and operate.

PREMIUM SERIES IE2 MOTORS

0.06 kW - 355 kW 0.08 HP - 470 HP
2,4, 6 & 8 Pole

High efficiency motors - Saves electricity bills
Speed variation application
Flexibility in TB position

PREMIUM SERIES IE3 MOTORS

0.18 kW - 355 kW (0.25 HP - 470 HP)
2,4, 6 & 8 Pole

High efficiency motors - Saves electricity bills
Speed variation application
Flexibility in TB position

CRANE DUTY MOTORS

These motors are suitable for duty cycle operations like hoisting, lifting and crane applications.

SMOKE MOTORS

Manufactured with AEG Technology, they are mainly designed for driving smoke extraction fans.

INVERTER DUTY MOTORS

Suitable for speed variation applications, these motors can be offered with encoder arrangement. They come with various mounting options and a longer life.

WIRES & CABLES

- Compact size available in wide range (upto 6300 A) • High breaking capacity (upto 100 kA) • Arc accelerator rapid cooling technology • Wide range of new micro processor releases • High-end protection and monitoring functions • IN-built measurement module • MODBUS (RS-485) communication enable • Ready for SCADA and Smart Cities • High mechanical & electrical life • Wide range of external & electrical life • Wide range of external & optional accessories • Plug in type, common front accessible, field fittable internal accessories
- Elegant design & rugged construction.

- 6 High continuous current rating • Higher short circuit rating • High emergency load capacity • Low dielectric loss • Longer charging currents • Free from height limitation & maintenance • Resistant to vibration, moisture, chemical & corrosive gases • Much longer life to cable

SWITCHGEARS

For more details on **Havells products** please visit our website www.madansales.com

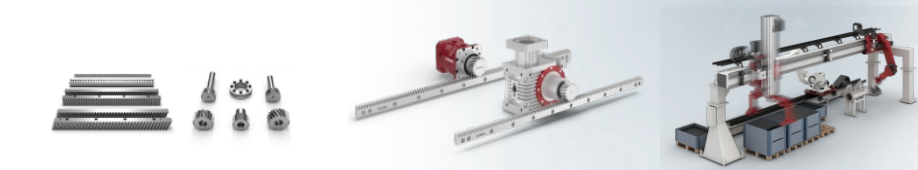

KTR has been a leading manufacturer of high-grade power transmission technology, brake systems & cooling systems, and hydraulic components.

Made for Motion

Specification :

Rotex- Jaw type shaft coupling,
 Rotex GS- Backlash free shaft coupling
 Toolflex- Metal bellow coupling,
 Radex N- Lamina type couplings, with Carbon Fibre (CFK) Spacers.
 Revolex KX- Cone Ring coupling similar to Pin Bush Couplings,
 Gearex- Full Gear Couplings, Precision U- Joints & Spacer couplings,
 BoWex- Curved tooth gear couplings,
 Torque limiters, Bell housing, Oil cooler & Oil tanks,
 Clampex- Shaft hub connections (taper locks),

Rack & Pinion

We have a wide selection of designs and qualities in our standards ranges, we can offer you custom-made models to suit your requirements.

Gearboxes

- High Performance Angle Gearboxes
- High Precision Planetary Gearboxes
- Low Backlash Drive Units

Robot

- Gantry Robot
- Robo Loop
- Robo Feeder
- Robo Speed
- Robo Beam

We take this opportunity to introduce Güdel, a well known Global Player with 50 years experience in Linear Motion Technology & Linear robotic system based automation.

Güdel India is a subsidiary of Güdel Group, a global manufacturer of industrial automation products, systems and services. Güdel India supplies gantry systems, linear motion modules, robot track motion units, gantry robots and components to OEMs, system integrators and machine builders serving Automotive, Aerospace, Intralogistics and Tyre industries.

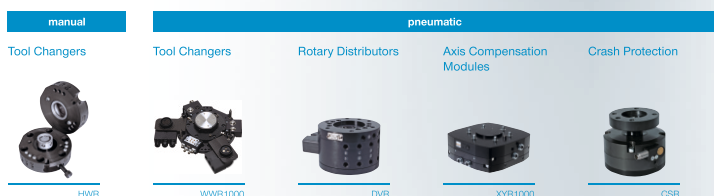

Güdel components are used by most of the leading brands who are building various kinds of machines & high accuracy linear motion systems.

Handling Technology

Grippers

Robot Accessories

For more than 80 years, Zimmer has been a driving force in the rapid growth of the musculoskeletal health care industry. With an unwavering focus on the needs of patients and surgeons, Zimmer has become an industry leader.

Our company is a reckoned entity devotedly engaged in offering an extensive assortment of Sommer Grippers & Components. Our offered range is manufactured by our vendors skilled workforce following all the quality guidelines defined by industry in tandem with the set international standards. In order to cater the diverse needs of our clients, these pumps are provided in various sizes and specifications. Moreover, clients can avail the entire range at industry leading prices within the promised time frame.

For more details on above products please visit our website www.madansales.com

Gedore as a company foresee to achieve critical milestones by bringing German quality in the market in different price range satisfying different strata of the customers who want best value for money.

"GEDORE" offers something very special: we produce tools for life. Gadore have the widest range of any European manufacturer and extremely high-quality products.

Gadore products are innovative and in close proximity to the customer. Gadore manufacture its products in three continents and market its products in 70 countries worldwide.

We, the leading stockist for the entire GEDORE product range, believe in catering to new opportunities for existing line of businesses.

Premium Industrial V-Belts

MADAN SALES CORPORATION was established in the year 1972 by Mr Rajaram Kataruka & Mr Bishnukumar Kataruka with great technical ideas to serve not only the Mechanical Industry but also to cover various Industries through our wide product range. In V-Belts, we concentrate on Quality & to the best satisfaction of our customers in all respect. The aim of starting MASCO-SUPER V-Belts is to ensure ISI Standard Quality product with strong technical support. We are using very high Quality Raw-material which alone ensures its long durability.

Application

MASCO SUPER classical V-Belts is an all-round type with a wide range of applications in agricultural, industrial and domestic machinery. MASCO SUPER classical V-Belts provides a technically and economically good design for most ordinary drives.

SALIENT FEATURES:

- Set Free
- Low Stretch
- More Power
- High Heat Resistance
- Anti Static

OUR RANGE OF PRODUCTS:

- Cogged Belts
- Domestic Belts
- Power Loom Belts
- Agriculture Machine Belts
